

Building Renewal Grant Application

Initial Submission Date: 7/26/2012 10:21:48 AM

Application ID: 78

Resubmittal Date: 10/1/2012 11:24:53 AM

Please provide as much of the requested information as possible. SFB staff will assist in developing required information that is not currently available.

District Name: Nogales Unified District

Superintendent: Steve Zimmerman

Contact Person: Ricardo De La Riva

Contact Phone Number: 520 980 0401

Contact Email: kscott@nUSD.k12.az.us

School Site: Lincoln Elementary School

Buildings: 9999 School Wide

Description of Problem

Please include a detailed description of the issues, as well as a description of and a copy of any professional studies, citations or reports from government entities, recommended solutions, and any cost information or estimates. If additional space is needed, please attach.

Due to drainage problems around the school that are not even part of the campus, when there are heavy rains water flows directly to the campus and gets into the main hallway areas and even into some classrooms. It is estimated that it would cost \$50,000 to redirect the drainage issues so as to prevent any future flooding.

Project Category: Surfaces

Are any of the above-described issues in buildings or part of buildings that are leased to another entity, including a district sponsored charter school? N

Available Funding

Current unencumbered building renewal fund balance (Fund 690):	\$0.00
Amount of Local funds planned for this project	\$0.00

Please outline any associated insurance coverage.

The District pumps water out during the monsoon season and using manpower, drains out the water. The District also installs temporary sandbags as barriers. However, since monsoons can occur outside regular school hours, on weekends, and on holidays, this is a very inefficient and costly procedure to follow since it can involve overtime pay. Also, repeated water damage will lead to more expensive repairs eventually and will even affect the structure integrity of the building, furniture, and even classroom materials and supplies. In addition there are health concerns with the possible development of mold issues.
